

## Ceti Comet Binocular Compound Microscope (LED)

**Product Code:** 1130.0005

**Brand:** Ceti

Ceti's Comet Binocular Compound Microscope (LED) can be used for basic laboratory and educational purposes. With its highly developed LED illumination system, it has the ability to produce clear and sharp images, giving the user a distinctive view of their samples.

This compound microscope features a built-in carrying handle and a range of Achromatic objectives (4x, 10x, 40x, 100x).

# Specifications
