

Medline High Temperature Autoclave Bags (310 x 660mm)

Product Code: 200310R

Brand: Medline Scientific

Medline's High Temperature Autoclave Bags (310 x 660mm) are manufactured from heavy gauge polypropylene material and are suitable for autoclaving up to a temperature of 136°C.

Each autoclave bag has blue biohazard labelling, designed for contaminated waste disposal.

They also have a write on panel to enable the user to mark each bag if required.
