

## Ceti Magnum Trinocular Compound Microscope (10x, 20x, 40x, 60x Polarisation)

**Product Code:** 2753.0000M

**Brand:** Ceti

Ceti's Magnum Trinocular Compound Microscope (4x, 10x, 40x, 60x Polarisation) is a popular, economically priced, biological upright microscope. Providing excellent quality images via the wide-field FN20mm eyepieces, this microscope includes four Infinity Corrected Plan Achromatic objectives in the reversed quintuple nosepiece.

It features a robust, T-shaped base, designed to offer maximum stability. Modern, ergonomic features such as a 30° inclined eyepiece tube, ensure a comfortable viewing position over a prolonged period.

This model can also be used in Brightfield mode so it is extremely flexible. Bright, white LED transmitted lighting, with intensity control, is also featured.

### Features

- Sturdy base for comfortable viewing over long periods
- Wide-field 10X, FN20 eyepieces with dioptic adjustment
- Quintuple, reversed nosepiece with four Infinity Corrected Plan Achromatic objectives
- Trinocular eyepiece tube as standard to accept digital microscope cameras
- Bright, white LED illumination with intensity control
- Full Köhler illumination

## Specifications

<b>Optical Head</b>	Trinocular with photo port, inclined at 30°
	Interpupillary Distance Adjustment (Siedentopf Type): 55 to 75mm
	Diotropic adjustment on one eyepiece
	Analyser
<b>Objectives</b>	4X, 10x, 40x, 60x Infinity Corrected Plan Achromatic
<b>Condenser</b>	Pre-condenser with field diaphragm and polariser
	Focusable and centrable, iris diaphragm
<b>Stage</b>	Round, centrable scale with two stage clips
<b>Focusing Knobs</b>	Coaxial coarse and fine with stop
	Tension adjustment ring
<b>Mains Power</b>	220 - 240V/50 - 60Hz
<b>Illumination, Transmitted</b>	3W LED with intensity control
<b>Supplied With</b>	Blue and green filter, 2 spare fuses, immersion oil (10ml), soft rubber eyecups, dust cover, and instruction manual
