

Deltalab 125ml Natural Security Screw Cap Containers with White Caps

Product Code: 444603402

Brand: Deltalab

Deltalab's 125ml Natural Security Screw Cap Containers with White Caps are high density polyethylene containers and are ideal for liquids.

These laboratory containers have a screw cap and provide leakproof closure with their child-proof system and split seal.

The cap is compound by two pieces that turn around themselves avoiding the cap to be opened, working as a security closure avoiding the accidental manipulation. To open the cap, push it down and turn it. The sealed caps need to be unscrewed to break the seal, showing that it has not been manipulated.

Specifications

Capacity (ml)	125
Cap Colour	White
Body Colour	Natural
Height (mm)	114.8
Base (Ø mm)	48
Body Weight (g)	13.6
Quantity	300

Unit 3, Tower Business Park
