

## Ceti Mi Platform Smartphone Adapter

**Product Code:** 9554.0007

**Brand:** Ceti

Ceti's Mi Platform is a smartphone adapter, which combines the comfort of microscope navigation and smartphone camera lens, thereby, enabling scientists and clinicians to study quality images quickly and ergonomically.

It maintains microscope-like navigation to fully utilize the advantages of microscopic slides in both clinical and training settings.

## Features

### ERGONOMICAL

#### Improved Posture

- No awkward work posture
- Reduced eyestrain and physical stress
- Improve work efficiency

### QUALITY

#### Image Quality

- Maintains quality\* image acquisition of photomicrographs
- Images comparable with standard captured images
- Maintains microscope-like navigation to fully utilize the advantages of microscopic slides
- Seamless integration of any smartphone within the existing laboratory workflow

*\*Image quality depends on microscope & smartphone camera.*

Unit 3, Tower Business Park

### EDUCATION

#### Acquire & Share

- Share information from the microscopic slide for consultation, training, and documentation
- Novel solution for capturing digital images for educational purposes

### USER-FRIENDLY

#### Ease of Use

- No requirement for optical alignment
- Straight-forward installation
- Requires limited adjustment each time the phone is attached and/or removed
- Stable imagery with the platform securely mounted on the eyepiece

### FLEXIBILITY

#### Wide Compatibility

- Compatible with any smartphone
- Smartphone can be used with a protective case
- Acquired image is the same as seen through the ocular lens
- Images can be posted on mobile or desktop applications
- Valid in both clinical and training settings
